### Fiction Key Stage 3

**Frank Beddor**

**The Looking Glass Wars**

Alice in Wonderland reinvented as a fast paced, gripping adventure. Forced to flee Wonderland when her evil aunt stages a coup, Princess Alyss finds herself stranded in Victorian England. Her stories of a country where imagination rules supreme are ridiculed, until even she comes to wonder whether her past life was just a dream. When she eventually does find someone who believes her, the Reverend Dodgson betrays her trust, distorting her history into childish fantasy. His tale is, however, the catalyst that launches her back into Wonderland's fight for freedom. Highly visual imaginative writing, fantastic in every sense of the word, with underlying allegorical strands providing added richness and interest. Best suited to Key Stage 3. 11+
